

SILOPROGRAMME

SERIES SLK60

Material:	AlMg3
Silo model:	Silo roof 15° slope, cone with 60° opening angle
Standard accessories:	1 set of lifting eyes, 1 discharge flange up to a max. DN 500, grounding strap
Documentation:	1 set of silo statics, 1 assembly drawing, operating and maintenance manuals 1 paper copy and as CD-ROM

Silo Type SLK60 with short skirt

Standard silos with short silo skirt and stand ring for full support on steel construction / concrete ceiling.

If you cannot use silos of the standard series due to structural reasons or bulk material properties, we can offer you suitable solutions for these cases.

Article no.: SLK = Standard storage silo, m³ = silo gross volume, 06 = bulk density 6 kN/m³, 1 = bulk density 10 kN/m³, 6 = 60° opening angle, a = filling height, b = total height, d = diameter.
All measurements in mm.
